## 3 million Travelers can't be wrong.

What made the Old Crow Traveler such a big favorite in so short a time? The way the Traveler packs flat? Definitely. But, the most important reason is because of what's inside. Old Crow...the world's most popular Bourbon.

### Live below your means.

If you'd like to get around the high cost of living, we have a suggestion: Cut down on the high cost of getting around. And buy a Volkswagen. It's only \$1699\* That's around \$1200 less than the average amount paid for a new car today. (Leave it in the bank. More's coming.) A VW saves you hundreds of dollars on upkeep over the years. It takes pints, not quarts, of oil. Not one iota of antifreeze.

And it gets about 27 miles to the gallon. The average car (thirsty devil that it is) only gets 14. So the more you drive, the more you save. And chances are, you'll drive it for years and years. (Since we never change the style, a VW never goes out of style.) Of course, a VW's not much to look at. So a lot of people buy a big flashy car just to save face. Try putting that in the bank.
